

VoxMe Agent Credits

Product overview for Microsoft Marketplace buyers

Configure, communicate, review

VoxMe brings assistant configuration, eligible inbound and outbound voice workflows, transcripts, summaries, and source-aware credit controls into one web service.

Customer workflow

1. Configure the assistant greeting and instructions.
2. Run an eligible VoxMe call workflow.
3. Review the transcript, summary, attendees, and follow-up actions.
4. Select a one-year credit-quantity plan in Microsoft Marketplace.
5. Return to VoxMe for verified activation and exactly-once credit issuance.
6. Track available, held, consumed, expired, and withheld credits by subscription.

Marketplace boundary: Microsoft displays the authoritative localized price, tax, market availability, and renewal setting. This local document does not claim certification or publication.

Supported software

Marketplace-funded credits are intended for approved VoxMe voice, communications, and VoxMe-purpose agent workflows. Standalone services, unrelated products, professional services, carrier charges, and cash-equivalent use are excluded.
